TA 301-B Street No.5 Tughlakabad Extension, New Delhi-110019

i Best way to predict the future is to create it.

Dynamic, self-motivated, results-oriented Java Developer with 6.10+ years of experience developing robust code for high volume business. Real Time work experience in the development of web Enterprise application using Java/J2EE, Microservices, AWS, Oracle, MySql, APIs Integration, Social media Integration, front-end technologies including, Angular 8, JavaScript and jQuery.

TECHNICAL SKILLS

Programming	Java (JEE)
Frameworks	Spring, Spring Boot, Angular
Data Base	IBM DB2, Oracle Database, Microsoft SQL Server, MySQL, PostgreSQL
IDEs development	IntelliJ Idea, Eclipse, Visual Studio Code, Maven, SVN, git
Middleware	Apache Tomcat, JBoss, Weblogic Server, PCF cloud environment, Bamboo, Harnees
Operating Systems	Windows Server, Windows 7/10, Linux Redhat
Others	Architecture SOA, appdynamic, splunk, SAP-Hybris 6.5, 1811, Sonar and Glow Root.

EXPERIENCE PROFESSIONAL

Present July 2021	Sr. Software Engineer Java Developer, MPHASIS LIMITED, Noida <ul style="list-style-type: none">> Participating in Grooming and Analyzing the User Stories> Invoking external services using service registry> Develop token exchange functionality for different issuer-applies> Updating the config files for various environments like DEV, QA, UAT, PROD> Authorized using SAML SSO in Application.> Implemented Attributes, Identity class according to Token flows.> Worked on Pivotal Cloud Foundry for maintaining Micro services. <div>Java8 Spring boot Micro Service Angular 10 Oracle Tomcat Jenkins PCF Splunk AWS</div>
July 2021 Sept 2020	Sr. Software Engineer Java Developer, HEXAWARE LIMITED, Gurugram <ul style="list-style-type: none">> We provide L3 support of development teams> Monitoring, validation and integration of outsourced developments> Implementation, analysis and delivery of bug fixes on business applications> Evolution's and bug fixes of the internal development framework on like DEV, QA, UAT, PROD> Worked on Rest API> Worked and completed all the stories assigned in appropriate time <div>Java Spring Spring boot Hibernate MySQL Eclipse Maven AWS</div>
May 2020 March 2019	Technical Consultant SAP Hybris Developer/Java, BIRLASOFT LIMITED, Noida <ul style="list-style-type: none">> Worked on B2B application. It is based on SAP-Hybris e-commerce platform> I have worked on Rental and Equipment project and i.e site setup> Delivered all sonar bugs report for Invacare and SAF project> Worked on Cronjobs and how to trigger cronjob through by Backoffice> I have made the CLP page with created facets and all products mapped.> Developed custom UI components with controller, façade, service layer. <div>Hybris Core Commerce 6.3 B2B accelerator Java Spring Framework HSQL</div>
Mar 2019 Nov 2016	Engineer Analyst , QUALTECH CONSULTANTS PRIVATE LTD, Noida <ul style="list-style-type: none">> Analysis, design, coding, unit testing and implementation of Java/J2EE functionality> Completely responsible for the admin module UI and backend and partial responsibility of the customer facing module from initial planning to deployment stage> Understanding of the business requirements for the product and customer expectations in terms of customized travel planning for the trip> Implementation of database using Hibernate as the ORM persistence layer as per the business requirements and created various classes in store module for interaction with Database> Involved integration, Functional, regression, UI, API testing with Apache JMeter and Soap UI.> Focus on making a feature done which involves team work, coordination with dev team <div>Java Servlets Spring MVC Hibernate Java Script JQuery</div>

2016	Master of Computer Applications(MCA) from Jamia Hamdard University New Delhi
2012	Bachelor of Computer Application(BCA) from Jamia Hamdard University New Delhi
2009	Senior Secondary school from Central Board of Secondary Education (CBSE), Delhi
2007	Secondary school from Central Board of Secondary Education (CBSE), Delhi

PROJECTS

CPC(CUSTOMER PICKUP COORDINATION)

2022 - PRESENT

Client- **FedEx**

FedEx deals with door pickup and delivery services. FedEx -CPC (Customer Pickup Coordination) System Module deals with pickup configuration.

Java Spring Oracle IBM DB2 Rest and SOAP API Web Logic Server

MICRO SERVICES FOR FEDEx GROUND

2022 - PRESENT

I am developing multiple Micro services for our client. It includes different projects like PCS , AUT, APR, GPI and Recurring order service and User Preference service in Gradle project as well by using Micro Service architecture

Java8 Spring boot Micro Service Hibernate Oracle DB2 PCF Splunk

CAM APP MODERNIZATION

2021 - 2022

Client- **Charles Schwab**

The project initiative is to Modernize the existing IBM TFIM based CAM into cloud based CAM App using Java, Spring Boot and Mongo DB using Microservices Architecture.CAM Project works as middleware for entire environment of Schwab, where the entire login flow, exchange flow, SSO will be communicated with CAM App in all Schwab Environment.Project involved migration of traffic from legacy mainframe based design/architecture (JDK 1.6) to a modernized tech stack involving JDK 1.8 with spring boot and Deployment by PCF cloud. As part of this modernization token exchange functionality was developed using the new stack as part of token based authentication to allow users to access different subsystem of this application from other subsystems.

Java8 Spring boot Micro services Service Registry Oracle PCF cloud.

WEB SERVICES FOR MAX LIFE INSURANCE

2020 - 2021

Developed multiple web services for our client. It includes different projects like Aadhaar validation, Pan validation, Max services, MPower, CRM, Employee App and Multiple Bureau more
Migrate all projects into multiple instance of each tomcat server like:- Customer Service(CS), New Business(NB), Security, Digital Identity, Human resources(HR),Taxation, Utility.

Java Spring Spring boot Hibernate MySQL Oracle Tomcat Server

INVACARE

2020 - 2021

It is a b2b accelerator providing you the solution for health care and have worked on Rental and Equipment project and i.e site setup.

I have made the custom content pages and bind them with the help of controller and jspinclude component and made the custom navigation nodes and its child nodes and located them with the specific language given and made the impexes for my account section,footer page, product classified and for its all nodes, I have maintained impexes for the cross-sellig, up-selling and related products data, products media and so on

Hybris Core Commerce 6.3 B2B accelerator Java Spring Framework HSQL

SAF-HOLLAND

2019 - 2020

Saf-holland is a B2B commerce website for three regions US, Canada, Mexico.It is providing the solution for parts and accessories of trucks basically.

Have delivered Cron Job for Exploded Image View Products in SAF Project and We have also done POC and implement in SAF project for CSV read and write file, Maintain Velocity templates and VM files for email generation. I have done the email generation part for forget password, registration part and I have worked on Hot-Folder Configuration to uploading data through CSV files for exploded View , etc.

Hybris Core Commerce 6.3 B2B accelerator Java Spring Framework HSQL

LEAD MANAGEMENT SYSTEM (MiFINLEADMANAGEMENT)

2016 - 2018

Lead management is a set of methodologies, systems, and practices designed to generate new potential business clientele, generally operated through a variety of marketing campaigns or programs. In this systems for each customer enquiry a new lead a created a unique number is assigned. Leads can be created through multiple modes such as : Through User Interface,Upload,Social media and has ability to interface with third party channels like websites, applications etc. It has different screen to save and show data such as documents, customer detail, product,worklist, etc for general users and dashboard and managerial worklist for higher level users.
